

Keyber Mendoza

Software Engineer | Full-Stack Developer

keiberjavier26@gmail.com | +58 424 382 6416 | Villa de Cura, Aragua, Venezuela
github.com/KeyberIT | Portfolio: keyberit.vercel.app

Full-Stack Software Engineer focused on designing scalable web applications, dynamic interfaces, and efficient relational databases. I thrive on translating complex business requirements into production-ready products. Through my experience building everything from Business Intelligence systems to highly interactive web platforms, I enforce strict engineering practices. Accustomed to rigorous Code Reviews by Senior Tech Leads, ensuring clean, maintainable, and robust code for production environments.

EXPERIENCE

Backend Engineer

Jun 2025 – Present

- Architected and deployed automated workflow systems integrating external APIs and relational databases, reducing manual operational load and eliminating data entry errors.
- Designed and secured background job processing and RESTful endpoints using token-based authentication and strict security headers.
- Developed a highly scalable multi-branch architecture with Advanced Role-Based Access Control (RBAC), supporting complex distributed operations and multi-tenant isolation.

FEATURED PROJECTS

Agent-K | *AI-Powered Automation SaaS*

- Built a multi-tenant platform for WhatsApp sales automation, centralizing catalogs and pricing.
- Engineered a high-throughput architecture using PostgreSQL background workers and AI-driven automated responses to handle high concurrent chat volume.

Forestock | *Inventory Management System*

- Implemented a Neural Prediction Engine to forecast stock depletion across multiple branches.
- Optimized bulk catalog imports via Excel parsing, leveraging Next.js, React 19, and Prisma for seamless data processing.

SKILLS

Languages: TypeScript, Python, JavaScript, SQL, HTML, CSS

Technologies & Databases: PostgreSQL, Prisma ORM, Docker, Next.js, React 19, Tailwind CSS

Tools & Platforms: Linux (CachyOS), Git, Vercel, Railway, n8n.cloud, WhatsApp API, GitHub

EDUCATION

Universidad Central, Rómulo Gallegos, Venezuela
Systems Engineering

Active Student
